DESCRIBE THE PRESENT AND ORIGINAL (If known) PHYSICAL APPEARANCE		
<p>This house is located along the east side of Maryland Route 66, just south of its junction with Chewsville Road and about three miles south of Smithsburg in Washington County. It faces west.</p> <p>The structure is a six-bay brick dwelling painted red with black and white trim. The walls display common bond brick work and rest on fieldstone foundations which become higher toward the rear of the house. What was probably a two-story, two-bay recessed porch has recently been enclosed with vertical siding.</p> <p>Windows appear to have been spaced evenly in the front elevation. Wide lintels are trimmed with decorated corner blocks. They contain six-over-six light double-hung sashes. Louvered shutters flank most windows.</p> <p>Entrances are located in the two center bays of the main section of the house. They are simple in appearance and include transoms which have been closed. A two-bay entrance porch supported by round pillars with a bracket cornice is present at the front elevation.</p> <p>The roof is covered with sheet metal and terminates with a plain barge set against the end walls of the house. The eaves are finished with boxing trimmed with simple molding.</p> <p>Brick chimneys rise from inside each gable end and from the interior of the structure where the main section and the two south bays join.</p> <p>The house is in excellent condition and stands on a tract containing 146.77 acres.</p>

April, 1975

Near the house is a small log structure, presumably a dwelling, two bays in length and one-story high. It has a large exterior stone chimney at its north gable end. The cabin has recently been restored. South of the main dwelling is a large stone bank barn in excellent condition.

According to the owner, a cemetery was located in a small woods along Route 66 about 1/4 mile south of the house. No stone markers remain and the trees have recently been removed.
